1. Identification/recognition

Charging socket

Lifting points

2. Immobilization/stabilization/lifting

Immobilizing vehicles

3. Disable direct hazards/safety regulations

Switching off the ignition (power display "OFF")

Press the "Start/Stop" button on the steering column without engaging the brake pedal.

Suitable lifting points

Keep the remote control vehicle key, key card and/or smartphone app at least five meters away from the vehicle wherever possible.

High-voltage battery

Deactivating the high-voltage system

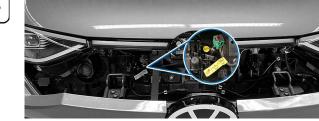

In the event of accidents where the airbag is deployed, the high-voltage system will be deactivated automatically as soon as airbag deployment has been detected. The high-voltage system will be de-energized around 20 seconds after deactivation.

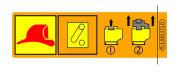

Do not touch, cut or open damaged high-voltage components, high-voltage cables or the high-voltage battery! Use appropriate personal protective equipment!

For all other cases, the high-voltage system can be deactivated as follows:

Option 1: from the engine compartment

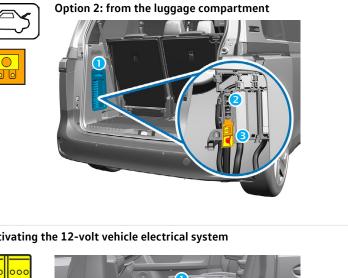

Document number rds_nar_41S_111_en

Version 01 (08/2024)

Volkswagen ID. Buzz

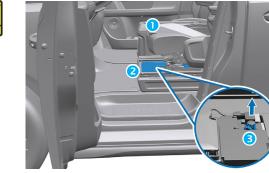

People, from 2024 5-door, 7-seater

- Remove the left-hand side trim panel 2 Locate the fuse (yellow label)
- 3 Remove the fuse

Deactivating the 12-volt vehicle electrical system

In the passenger compartment under the lefthand seat:

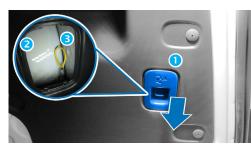

- Move the seat all the way back
- 2 Remove the cover
- Oisconnect the earth connection (-)

After disconnecting the 12-volt vehicle electrical system, the airbags will be deactivated. In the event of fire, airbags that have not ignited may deploy due to heat!

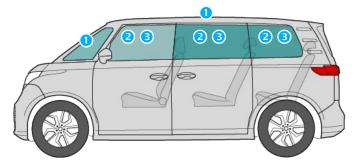

Disconnecting from the charging station (emergency release)

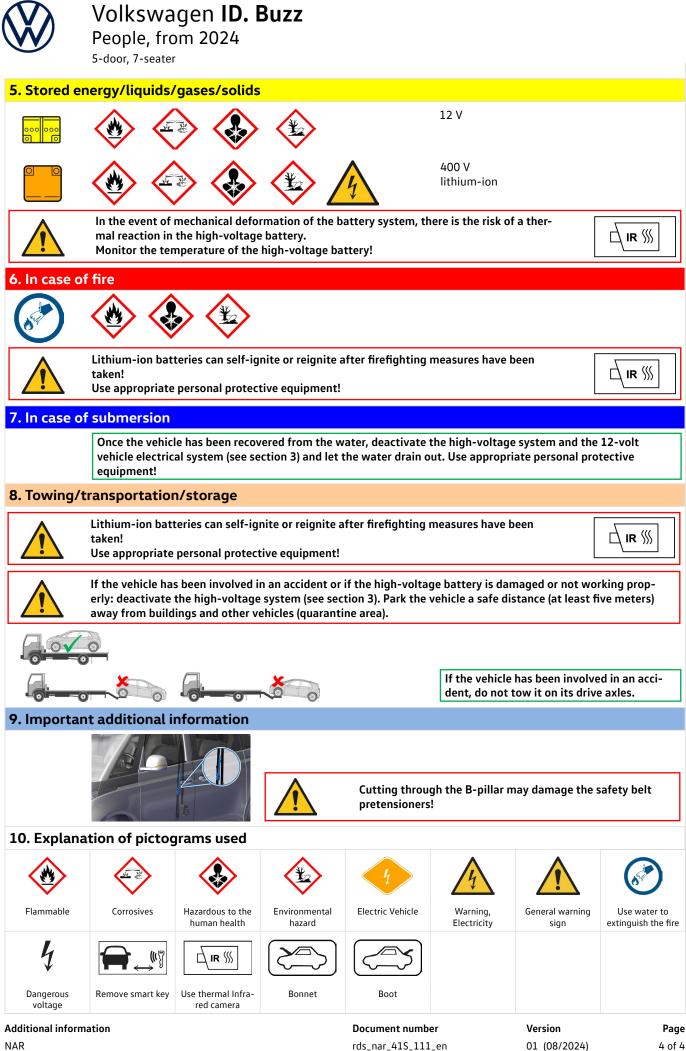

- **1** Remove the right-hand side trim panel
- **2** Locate the yellow loop for emergency release
- 9 Pull on the loop

4. Access to the occupants

- Glass types:
- Composite safety glass
- 2 Single-pane safety glass
- **3** Optional composite safety glass

In the event of accidents where the airbag is deployed, electrically powered doors and the trunk lid are unlocked automatically.
